Description

USB-Link for GATE Control Station™ app

The USB-Link is used for connecting GATE TITAN and ASTER with PC, Mac or Android devices.

Kit contents:

1. USB-Link for GCS app
2. USB-C cable [0.6 m / 1 ft 11 in]
3. Micro-USB cable [0.6 m / 1 ft 11 in]
4. 'Troubleshooting' Card
5. Quickstart Guide

GATE Control Station™

Simply update the firmware and/or adjust the settings at home, using the USB-Link and the GATE Control Station™ computer app.

USB-Link

Working in tandem with GATE Control Station™ app, USB-Link gives you full access to TITAN's or ASTER's functions and settings. Moreover, it allows for updating firmware of the drop-in module and the Tactical Programming Card.

What is the difference between using **Tactical Programming Card** or **USB-Link**?

The main difference is that the **Tactical Programming Card** is small, lightweight and portable. Using **USB-Link with GATE Control Station™** gives more functions, including firmware update, and requires connection to PC/Mac.
