Description

The piston head designed especially for standard and high-performance builds, helping achieve best results and overcome limits. Thanks to the use of 10 vents, airflow significantly increases improving sealing. High quality aircraft-grade aluminum CNC machining ensures repeatability of shots, perfect head-to-cylinder seal, and high power. Together with adjustable AOE, it is essential for every build. The special weight pads included in the kit allow using heavier BBs in DMR builds.

Features:

- Designed especially for standard and high-performance builds
- 10 vents enhancing airflow and sealing
- Ultra-high quality of aircraft-grade aluminum CNC machining
- Perfect head-to-cylinder seal
- AOE spacer included
- Special weight pads for heavier BBs in DMR builds
- No limits in spring power
- No AEG modification required
- Dedicated especially to pros and skilled users
- Piston head weight 4.7 g (without bearing or pads)

Compatibility:

- All standard AEG cylinders
- All standard AEG cylinder heads
- All standard AEG pistons
