Description

When hair trigger starts to be boring, it means you are ready for the next level. With Quantum Trigger and ASTER V2, you can set sensitivity from ludicrous 'touch' through 'hair' to full movement.

Now you have an exclusive chance to get the limited edition of green Quantum Triggers 1A1. There are only 50 of them in the world, and each trigger has its own serial number. Get it now and start celebrating Quantum Christmas with GATE!

Please note that the limited edition triggers will be shipped in sequence, so selecting a specific serial number is impossible.

Features:

- Ultra-high resolution – even 60 trigger sensitivities for the 1st mm (0.04 in) of movement
- Even 470 possible sensitivity levels for whole movement
- Designed to work with ASTER V2 optical sensors
- Dedicated especially for pros and skilled users
- Made from aluminium by CNC

Using the Quantum Trigger, you benefit from a totally new way of trigger detection. Instead of covering, the trigger precisely reflects the light. Shape and surface of the QT is unique and dedicated to work with ASTER V2 sensor. All these features give that extreme resolution.

This CNC Quantum Trigger is like a diamond among coal rocks. Dare to try it.

Compatible only with ASTER V2.

Notice: Quantum Trigger requires at least GCS 3.0 beta 5 (Windows/macOS) or GCS v1.5.6 (Android devices) and ASTER firmware version 3.1-03 or later.

Please note that due to different screen settings and light conditions, color of the products seen in the pictures may be slightly different than the actual item. Color differences may also occur between different batches of the product.

Price concerns 1 trigger.
