Description

TITAN™

TITAN V2™ Advanced Set – at once you purchase TITAN with **ADVANCED firmware** edition, USB-Link and USB cables allowing to connect TITAN to PC, Mac as well as Android device.

The ADVANCED firmware edition offers wide variety of functions and is dedicated for those who like complex solutions. It enables access to the Statistics and TITAN World Rankings. To check all the differences between firmware editions, please refer to the comparison table.

Kit contents:

1. TITAN V2 with ADVANCED firmware edition (rear or front wired)
2. USB-Link for GATE Control Station™ app
3. USB-C cable for USB-Link [0.6 m / 1 ft 11 in]
4. Micro-USB cable for USB-Link [0.6 m / 1 ft 11 in]
5. Installation Kit
6. Quickstart Guide

TITAN V2™ is an AEG Control System for V2 gearboxes which will transform your AEG into an advanced training weapon. Adjust your AEG and check the Statistics using USB-Link and GATE Control Station app for **PC, Mac and Android devices**. Gain a tactical advantage thanks to the extremely fast trigger response, option of adjusting trigger sensitivity to your preferences and many other useful functions. Give your AEG a new lease of life!

Thanks to the optical sensors, we eliminated the problem of faulty switches that can occur in competitors' drop-in MOSFETs. The trigger has no mechanical connections with the PCB. This eliminates mechanical stresses and provides for high reliability.
